

The mission of Centro Jovellanos is to implement, develop and design comprehensive rescue and maritime safety training systems that are high quality, highly specialised, certified, innovative, and sustainable to ensure the most remarkable levels of professional training.

Train, provide, reduce, innovate and guarantee are the five key goals of the Jovellanos Centre, which is the training centre of the Spanish Maritime Search and Rescue Agency, a public entity dependent on the Ministry of Transport and Sustainable Mobility.

## COURSE PREVENTING AND COMBATING POLLUTION BASIC OPERATING LEVEL

### TARGET GROUP

Personnel who perform or may perform duties involving the loading, unloading and handling of hydrocarbons in maritime and port environments: seaports, shipbuilding and ship repair yards, oil platforms, shipbreaking yards, oil waste reception facilities and any other maritime facilities located where Spain exercises sovereignty, sovereign rights or jurisdiction, whether the operations are carried out by fixed, mobile or floating means.

#### Law:

RD 253/2004 of 13 February.

Order FOM/555/2005 of 2 March.

The Jovellanos Center is homologated by the DGMM Resolution of July 14, 2005.

### TRAINING

**Objective:** The course provides trainees with knowledge on spill prevention, containment and collection systems, the appropriate equipment and its maintenance and repair, in order to provide the correct response to marine pollution situations, according to the basic structure established in contingency plans.

### DURATION

The course consists of 20 hours and it's delivered over a period of 3 days.

### PROGRAMME

Course regulated under Orden FOM 555/2005 of 2 March.

Common module.

Basic Operating Level.

Practical training.
